NICKEL TESTED - DERMATOLOGICALLY TESTED

TRICO-SALUS LINE INSTRUCTIONS

- **DANDRUFF (Pityriasis)**

One of the most frequent abnormalities, often accompanied by itching. It shows itself as abundant flaking on the scalp and the appearance of small whitish scales, or residues of dead cells whose replacement occurs too quickly. There are two types, DRY DANDRUFF, when the scales detach from the skin with consequent unsightly snowfall effect, or FATTY DANDRUFF, associated with excessive sebum production. The scales remain attached to the scalp, with possible serious consequences.

RECOMMENDED PRODUCTS

We recommend using the TRICO-SALUS Purifying Scrub Solution 1/2 times a week. For about 2/3 weeks wash your hair as many times as you need with the dandruff hair shampoo, then alternate it with the frequent wash shampoo. We recommend using TRICO-SALUS REDENSIFYING LOTION Solution for at least 2 application cycles. (Once a day for 8 weeks, then stop for 1 month, then repeat the cycle) Thanks to its anti-inflammatory properties (OLEUROPEIN) it is also very effective in the treatment of this anomaly.

- **OILY SKIN (Seborrhea)**

In this case, the sebaceous glands are producing excessive amounts of sebum. The skin has an oily appearance and even shortly after washing the hair takes on an oily and opaque appearance, losing volume and brightness. It is necessary to intervene, counteract the excessive production of sebum and restore the natural physiological balance of the skin.

RECOMMENDED PRODUCTS

We recommend using the TRICO-SALUS Purifying Scrub Solution 1/2 times a week. Wash your hair as many times as necessary with the TRICO-SALUS Shampoo Solution for oily hair for about 2 weeks, then alternate it with the frequent wash shampoo. We recommend the use of the TRICO-SALUS REDENSIFYING LOTION Solution for at least 2 application cycles (once a day for 8 weeks, then stop for 1 month, then repeat the cycle) to optimize the results and thicken the stem by exerting an anti-inflammatory, antibacterial action on the entire pilosebaceous apparatus.

- **EXCESSIVE FALL/THINNING (Alopecia)**

Hair loss is to be considered normal, when it is around 50/100 hairs per day. In the event of greater hair loss, in conjunction with thinning of the scalp and thinning of the stem, it is necessary to intervene.

RECOMMENDED PRODUCTS

We recommend using the TRICO-SALUS PURIFYING SCRUB Solution 1/2 times a week. Wash your hair with the antifall shampoo, as many times as necessary. Then apply TRICO-SALUS REDENSIFYING LOTION Solution for at least three consecutive cycles. (Once a day for 8 weeks, then stop for 1 month, then repeat the cycle). During the break month, continue with the TRICO-SALUS PURIFYING SCRUB Solution once a week and the TRICO-SALUS antifall Shampoo Solution as many times as necessary.

- **DRY SKIN (Asteatosis)**

Peeling and cracking of the skin, not to be confused with DANDRUFF. In this case, the scales of epithelium are very dehydrated, they detach in a compact manner from the skin. In most cases, without causing itching. It is often associated with dehydrated, extremely dry hair.

RECOMMENDED PRODUCTS

We recommend using the TRICO-SALUS PURIFYING SCRUB Solution 1/2 times per week for the first three weeks, then switch to 1 time per week/10 days. Wash hair with TRICO-SALUS solution frequent wash shampoo. We recommend using TRICO-SALUS REDENSIFYING LOTION Solution for at least 2 application cycles. (Once a day for 8 weeks, then stop for 1 month, then repeat the cycle) If the hair is very dry after 3 weeks but the physiological balance of the skin has been restored, switch to the LUMINA PROFESSIONAL line silk effect moisturizing shampoo, followed by the mask, taking particular care not to put it on the scalp.

NB: *For those who experience notable skin sensitivity, which can be perceived as pain, burning, tingling or itching, it is recommended to use the TRICPO-SALUS SCRUB Solution once a week and the frequent wash shampoo formulated with extremely gentle and soothing active ingredients.*
